NIH Update

Change in Business Process

Interim Changes to the PHS 398

And PHS 2590

WORKER EDUCATION AND TRAINING PROGRAM

Change in Business Process:

- **Signature of the PI is no longer required as part of a submitted application, Progress Report, or Prior Approval.**
- **Instead, the applicant organization agrees to secure and retain a written assurance from the PI prior to any submission.**
- **Applicants must retain a unique signature and date for each submission.**

Interim Changes to the PHS 398 Application & Instructions

- NIH Guide Notice NOT-OD-06-056 summarizes numerous business process changes implemented since the 9/2004 revision of the PHS 398 and applicable revisions to forms and instructions.
- Revised forms (4/2006) are available for immediate use and are required for submission/receipt dates of paper application on/after May 10, 2006.

Interim Changes to the PS 398 (Rev. 4/2006)

- Person Months (appt. x % of effort = person months) now used regardless of which forms are used (i.e. PHS 398, SF 424 R&R, etc).
- Eliminating Biographical Sketch Subsection Limits—No longer 2 page limit on sections A&B; however 4 page limit remains on entire biographical sketch

Interim Changes to the PHS 2590

Application & Instructions

- NIH Guide Notice NOY-OD-06-058 summarizes the process changes implemented since the 9/2004 revision of the PHS 2590.
- Revised forms (4/2006) and instructions are available for immediate use and are required for paper progress reports being prepared for due dates on/after June 1, 2006.
- Revised forms and instructions are available at <http://grants.nih.gov/grants/funding/2590/2590.htm>

Interim changes to the PHS 2590 (Rev 4/2006)

- Person Months now used. Replace Percent Effort sections with Person Months on:
 - Form Page 2 (Detailed Budget Page)
 - Form Page 7 (Key Personnel Report)
 - Other Support Instructions
 - General Instructions changed where applicable
- Eliminating Biographical Sketch Subsection Limits—No longer a 2 page limit on sections A&B; however the 4 page limit remains on the entire biographical sketch

Person Months: FAQs

- What is the definition of person months?
 - The metric for expressing the effort (amount of time) that a person devotes to a specific project.
 - Effort is based on the organization's regular academic, summer, or calendar year.
- How do you calculate person months?
 - Multiply the percentage of your effort times the number of months of the appointment. For example:
 - 10% of a 9 month academic year appointment equals .9 person months ($9 \times .10 = .9$ person months)
 - 10% of a 12 month calendar appointment equals 1.2 months ($12 \times .1 = 1.2$ person months)
- How do I know if I'm over committed?
 - Personnel with over 12 person months would be an indicator of over-commitment (i.e. 12 person months translates to 100% effort)

Revised Instructions/Forms

- Full information regarding the Business Process Changes and Revised Instructions/Forms is available at:
